GDKEY	Spare Key

LEADING-EDGE GRID 2-WAY DIMMER

- 40-400W incandescent | 5-100W LED
- Operation: Press on/off - Rotary action dim up/down

Code	Model
CUGM14	40-400W (5-100W LED) Leading-Edge Dimmer
CUGMDS	6A Dummy Dimmer Switch

MISCELLANEOUS GRID MODULES

- For use with Curved Edge grid faceplates only

Code	Model
CUGM15	Fuse Holder (13A)
CUGM16	Flex Outlet (max. 10mm)
CUGM17	Blank

Code	Model
CUGM13	Indicator - Red
CUGM12	Indicator - Orange
CUGM11	Indicator - Green

GRID ROCKER COVERS

- Replace an existing rocker with a laser printed version identifying the appliance it refers to

Code	Model
CUBOIL	Boiler
CUCOFF	Coffee Machine
CUHOOD	Cooker Hood
CUDISH	Dishwasher
CUFAN	Fan
CUBOOST	Fan Boost
CUFREEZER	Freezer
CUFRIDGE	Fridge
CUFRID	Fridge Freezer

Code	Model
CUHOB	Hob
CUMICRO	Microwave
CUOVEN	Oven
CUDRY	Tumble Dryer
CUWARM	Warming Drawer
CUWASH	Washing Machine
CUWASTE	Waste Disposal
CUWINE	Wine Cooler

GRID BACK BOXES AVAILABLE ON PAGE 175

PART M Range

ON INDICATOR
On all products for additional safety

LASER PRINTING
All markings (where required) are applied with modern laser printing

ANTI-MICROBIAL
ISO22196:2011

LOW PROFILE DESIGN
Projection of just 9mm (including gasket)

SCREW CAP COVERS
Included as standard, for a clean, finished look

TOP-DOWN TERMINATION
L, N, and E can all be terminated from the top – ideal when installing multiple outlets

Part M Building Regulations focus on the importance of access to and the use of buildings.

The regulations stipulate that it is a legal requirement to provide easy access for all visitors, including those with disabilities, who are working, visiting or residing in the following spaces:

1. A non-domestic building or a dwelling that is newly erected
2. An existing non-domestic building that is extended or undergoes a material alteration
3. An existing building or part of an existing building that undergoes a material change of use to a hotel or boarding house, institution, public building, or shop

Where wiring accessories are concerned, the following factors must be adhered to:

4.3 M - Requirement for switches to visually contrast with their surroundings
4.3 H - Requirement for wide rocker switch solutions (for use in communal areas)
4.3 K - Requirement for switched sockets to indicate whether they are "ON"
4.3 I - Requirement for pull cord switches to have visually contrasting cord and bangle
4.3 L - Requirement for mains and circuit isolators to clearly indicate they are "ON"

The Curved Edge range is the ideal foundation for this category as it is compatible with Datacomms modular inserts and the Curved Grid Accessories (found on page 24).

25 YEAR WARRANTY*

*2 years on electronic products

DIMENSIONS*

Single plate: 86mm x 86mm
Double plate: 86mm x 146mm
Projection: 7mm

*Unless otherwise stated

13A 2G SOCKETS

- Outboard Rockers
- Twin Earthing points for high integrity earthing requirements
- Min. mounting box depth: 25mm

Code	Model	
PM9001	2G DP Switched socket (outboard rocker model)	NEW
PM9001N	2G DP Switched socket with neon (outboard rocker model)	NEW

13A 2G SWITCHED SOCKET WITH USB

- Outboard Rockers
- Twin Earthing points for high integrity earthing requirements
- Min. mounting box depth: 25-35mm depending on wiring conditions

Code	Model	
PM9002	2G DP Switched socket with dual USB A+C (outboard rocker model)	NEW

13A RCD SOCKET & FUSED SPUR

Type A RCD for AC residual current and pulsating DC up to 6 mA. Suitable for equipment with electronic components like IT equipment.

Passive (latching) type, which will automatically reset after a power outage, without the need for manual resetting.

- Tripping current (IΔn): 30mA
- Trip time @ IΔn: 40ms
- Outboard rockers
- Minimum mounting box depth: 35mm

Code	Model	
PM9RCD	2G DP RCD Switched socket	NEW
PM6RCD	13A RCD Fused Spur (Type-A)	NEW

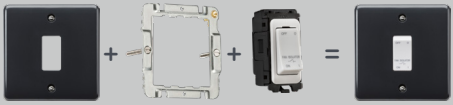
13A 1G SWITCHED SOCKETS

- Minimum mounting box depth: 25mm

Code	Model	
PM7000	1G DP Switched socket	NEW
PM7000N	1G DP Switched socket with neon	NEW

10AX FAN ISOLATOR SWITCH

- A solution for this can be created using Grid the following codes



Code	Model	
PMG1+ CUG1F+ CUGM19	10A Triple Pole	NEW

PM2G + NET2WH

NEW

10AX SWITCHES

- Minimum mounting box depth: 16mm (unless otherwise specified)

Code	Model	
PM2000	10AX 1G 2-way switch	NEW
PM3000	10AX 2G 2-way switch	NEW
PM4000	10AX 3G 2-way switch	NEW

20AX WIDE ROCKER SWITCHES

- A solution for this can be created using the following codes

Code	Model	
PM2G + NET2WWH	20AX 1G 2-way	NEW
PM2G + [NET2WH x 2]	20AX 2G 2-way	NEW
PM2G + NET12WWH	20AX 1G Intermediate	NEW

13A FUSED SPUR UNITS

- Min. mounting box depth: 25mm
- Double Pole switches (where applicable)

Code	Model	
PM6300	13A Switched fused spur	NEW
PM6300N	13A Switched fused spur with neon	NEW
PM6300NF	13A Switched fused spur with neon & flex outlet	NEW

20A SWITCHES

- Minimum mounting box depth: 25mm

Code	Model	
PM8341N	20A 1G DP Switch with neon	NEW

45A COOKER SWITCHES

- Minimum mounting box depth: 25mm

Code	Model	
PM8331N	45A 1G DP Switch with neon	NEW
PM8333N	45A DP Switch & 13A socket with neons	NEW

MODULAR FACEPLATES

- For use with euromodule inserts 25x50mm and 50x50mm

Code	Model	
PM1G	1G Modular faceplate	NEW
PM2G	2G Modular faceplate	NEW
PM4G	4G Modular faceplate	NEW

10AX PULL CORD SWITCH

- With Grey Bangle and Cord

Code	Model	
PM8300	2-Way Pull Cord Switch with Grey Cord and Bangle	NEW

45A PULL CORD SWITCH

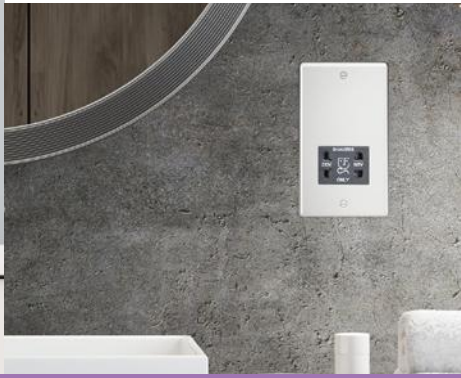
- With Grey Bangle and Cord
- Mechanical On/Off Indicator
- Neon indicator

Code	Model	
PM8310N	DP Pull Cord Switch with Grey Cord and Bangle	NEW

RED EMERGENCY CORD KIT

- For use with emergency alarm systems
- 3m PVC cord (cut to size) - waterproof and wipe clean reduces risk of contamination
- Includes two triangular red bangles + Joint union
- One bangle should be set at 100mm from floor the other between 800-1000mm from floor for easy access

Code	Model	
PMCORDR	2 x Red Bangle and Plastic Cord	NEW



METAL DECORATIVE
SWITCHES & SOCKETS

ROUNDED EDGE

Metal decorative switches and sockets with a contemporary rounded edge design

2G Sockets | 2G USB Sockets	36
1G Sockets | 1G USB Sockets | Lockable Sockets	37
Shaver Sockets | Round Pin Sockets | Fan Isolator Switches	38

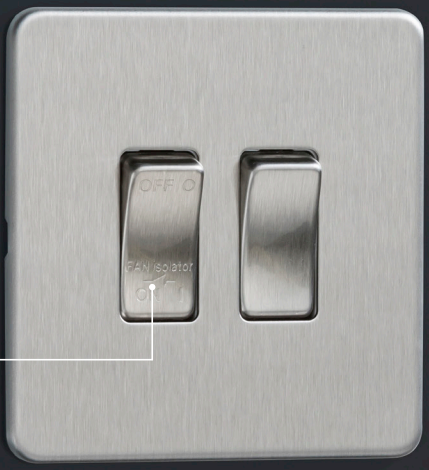
SINGLE GRID POSITION FAN ISOLATOR SWITCH

From Knightsbridge



CONTROL EXTRACTOR FANS THROUGH A SINGLE WALL SWITCH

TRIPLE POLE

HUGE TIME SAVINGS

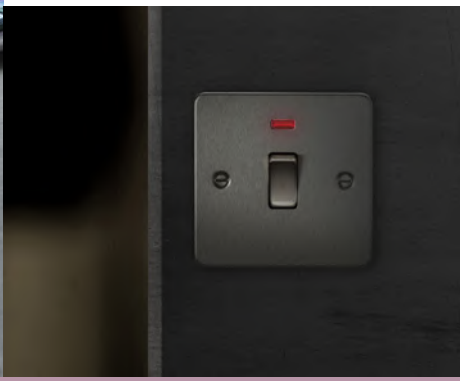
Eliminates the need for over-door fan isolator switches

OPTIONS FIT FOR DOMESTIC OR COMMERCIAL USE

Switch and key switch modules available in a variety of finishes

TECHNICAL DETAILS

- **Product code:**
  GDM020xx (switch)
  GDM021xx (key switch)
- **10A rated**
- **Triple pole**
- **Engraved text**
- **Quick install: easy clip-in system**
- **For fans requiring a fuse, use a GDM011xx fuse holder alongside the fan isolator switch options**
- **Uses just a single grid position**



METAL DECORATIVE SWITCHES & SOCKETS

FLAT PLATE

Metal decorative switches and sockets featuring an ultra slim profile design

2G Sockets	66
2G USB Sockets	67
1G USB Sockets | 1G Sockets	69
Shaver Sockets	70
Fan Isolator Switches | Round Pin Sockets	71
Switches	72
Toggle Switches	74
Dimmers	75

Cooker Switches & Sockets	79
Media Outlets	80
Blanking Plates | Floor Sockets	82
Modular Frames	83

COLOUR MATCHING

Matching metal rockers with no surround

DOUBLE POLE SWITCHES

On selected products for additional safety

LONG LASTING

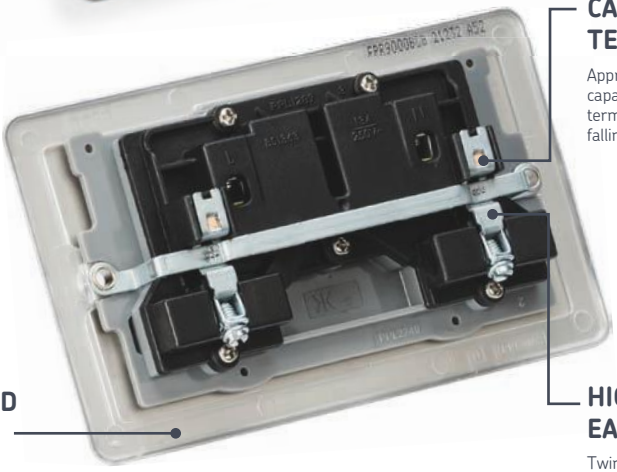
Robust full metal housing

UNIQUE SOCKET DESIGN

Socket completely concealed by plug once inserted

ULTRA-SLIM DESIGN

Projection of just 2.5mm (including gasket)



CAPTIVE TERMINALS

Appropriate terminal capacities and captive terminals to prevent screws falling out

INTEGRATED MOISTURE GASKET

Prevents any moisture transfer to decorative front plate

HIGH INTEGRITY EARTHING

Twin earth terminals where appropriate

---

25 YEAR WARRANTY*

*2 years on electronic products

DIMENSIONS*

Single plate: 87.5 x 87.5mm
Double plate: 87.5 x 147.5mm
Projection: 2.5mm

*Unless otherwise stated

High-quality imported components are used in this range, ensuring trouble-free charging and longevity for hospitality areas

METAL DECORATIVE SWITCHES & SOCKETS

SCREWLESS

The screwless collection is available in 8 stunning finishes and has a flat plate, ultra slim profile design. Easy to install, and the perfect upgrade to any environment.

2G Sockets	88
2G USB Sockets (including FASTCHARGE sockets)	89
1G Quad Charging Outlet	92
1G Sockets	93
1G USB Sockets (including FASTCHARGE sockets)	93
Lockable Sockets	94
Round Pin Sockets | Fan Isolator Switches	95
Shaver Sockets	96
Shaver Sockets with Dual USB	97
Touchless Switches | Switches	98
Toggle Switches	101
Dimmers	102
Fused Spur Units	104
Key Card Switches | Reading Light with Dual USB Charger	106
Switches	107
Cooker Switches & Sockets	108
Media Outlets	110
Blanking Plates	111
Modular Frames	112
Multimedia Combination Faceplates	114

COLOUR MATCHING

Matching metal rockers with no surround

DOUBLE POLE SWITCHES

On selected products for additional safety

LONG LASTING

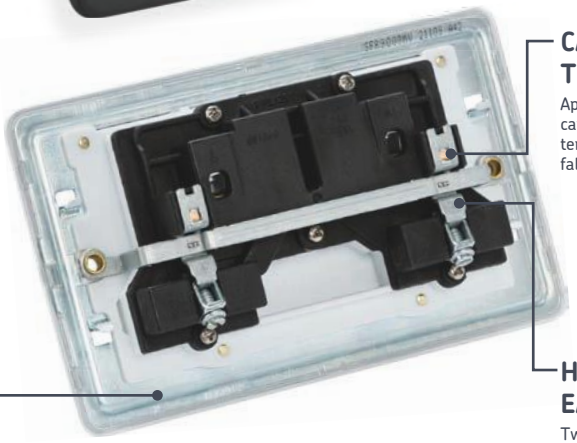
Robust full metal housing

UNIQUE SOCKET DESIGN

Socket completely concealed by plug once inserted

LOW PROFILE DESIGN

Projection of just 4.3mm (including gasket)



CAPTIVE TERMINALS

Appropriate terminal capacities and captive terminals to prevent screws falling out

INTEGRATED MOISTURE GASKET

Prevents any moisture transfer to decorative front plate

HIGH INTEGRITY EARTHING

Twin earth terminals where appropriate

25 YEAR WARRANTY*

*2 years on electronic products

DIMENSIONS*

Single plate: 87.5mm x 87.5mm
Double plate: 87.5mm x 147.5mm
Projection: 4.3mm

*Unless otherwise stated

High-quality imported components are used in this range, ensuring trouble-free charging and longevity for hospitality areas

IP54 3G POP-UP SOCKET WITH DUAL USB A+C

FAST CHARGE

- These devices have a secure clip that locks the unit upright when in use
- Unit can be closed with items plugged in via the innovative cable management cap and inverted socket positions
- IP54 rated when unit is closed and not in use
- 13A fused
- 230V
- Backlit ON/OFF rocker
- Fitted with 2m cable and BS plug top
- Cut-out: 90-92mm (allowing a minimum 25mm clearance around the cut hole)
- Mounting board thickness: 10-50mm
- Dual USB outlets C+A
- 5V DC 4.0A [shared]
- Compatible with QC (quick charge) and USBPD (USB power delivery)
- USB sockets capable of delivering up to 18W
- Built-in overheat/overload protection
- Capable of delivering 0-50% charge in under 30 mins

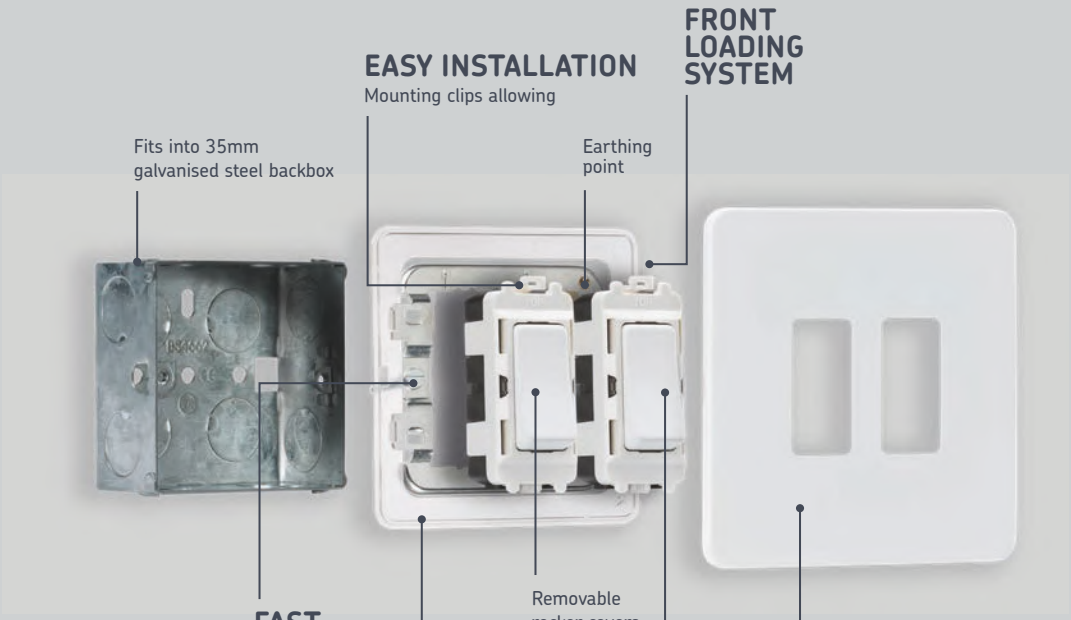
GRID WIRING ACCESSORIES

The Grid Wiring Accessories Range has been developed to complement and integrate into the Knightsbridge Screwless, Flat Plate, Raised Edge and Metalclad ranges.

Rounded Edge Faceplates | Square Edge Faceplates | Flat Plate Faceplates	154
Screwless Faceplates	155
Switch Modules | Key Switch Modules	156
Dimmer Modules	157
Miscellaneous Modules | Fan Isolator Modules	158
Rocker Covers	159

IDEAL FOR THE MOST DEMANDING PROJECTS

Grid wiring accessories offer multiple switching options, control, and additional features such as USB charging.
With solutions available across several ranges, our grid offering is versatile and offers a perfect solution for domestic, industrial, and commercial installations



Manufactured to the latest British Safety Standards

Example shown here is for Screwless grid accessories, construction on other ranges may vary

KNOW YOUR IP RATING

IPxx

First digit
Indicates the level of protection against access to hazardous parts and the ingress of solid objects

1	**>50mm** Protection against any large surface of the body, such as the back of a hand, but no protection against deliberate contact
2	**>12.5mm** Protection against fingers or similar objects
3	**>2.5mm** Protection against tools, thick wires, etc.
4	**>1mm** Protection against most wires, slender screws, large insects etc.
5	**Dust protected** Protection against dust that may harm equipment
6	**Dust tight** No ingress of dust; complete protection against ingress

Second digit
Indicates the level of protection against the harmful ingress of water

1	**Dripping water** Protection against vertical drops when mounted in an upright position onto a turntable and rotated at 1 RPM
2	**Dripping water (tilted)** Protection against water droplets when tilted up to 15° from vertical
3	**Spraying water** Protection against water spray up to an angle of 60 degrees
4	**Splashing water** Protection against splashing water from any direction
5	**Water jets** Protection against low pressure jets of water from any direction
6	**Powerful water jets** Protection against high pressure jets of water from any direction

Please note, IPX7 and IPX8 are tested using different methods from IPX6 and below. Products with IPX7 or IPX8 ratings are not necessarily protected from water jets or splashes

7	**Immersion up to 1m** Protection from immersion in water under defined conditions of pressure and time
8	**Immersion beyond 1m** Protection from immersion in water under defined conditions of pressure and time

WIRELESS DOOR CHIME

- 58 ringtones to choose from
- Volume control - up to 110dB
- Eye-catching visual alert
- Hassle-free installation – no wiring necessary
- Learning code prevents interference from other wireless transmitters
- Additional plug-in receivers or bell pushes can be added, if desired
- Working frequency: 433MHz
- Working temperature: -20 - 50° C

WIRELESS BATTERY POWERED DOOR CHIME

IP44 IP55

2 YEAR WARRANTY

RECEIVER

- IP44 rated
- Battery powered requires 3 x AAA batteries (not included)
- Wall mountable or free standing
- Power consumption: less than 0.3W
- Range of approx. 150-200m (depending on environment)

BELL PUSH

- IP55 rated
- Includes fixing for mounting
- Battery powered requires 1 x 12V 23A battery (included)
- Power consumption: less than 10mW
- Range of approx. 150-200m (depending on environment)

Code	Model	Finish
DC010	Wireless Battery Powered Door Chime	White

WIRELESS PLUG-IN DOOR CHIMES

RECEIVER

- Indoor use only
- 230V
- Power consumption: less than 0.3W
- Range of approx. 150-200m (depending on environment)

BELL PUSH

- IP55 rated
- Door number sleeve
- Can be screw mounted or with double-sided sticker pads
- Battery powered requires 1 x 12V 23A battery (included)
- Power consumption: less than 10mW
- Range of approx. 150-200m (depending on environment)
- Dual bell push and dual receiver systems available

- Ideal solution for removing damp moist air, odours, and airborne pollutants from kitchens, toilets, and bathrooms
- Designed to be installed into walls and ceilings
- Modern design with built-in LED array, easy to wipe clean and convenient to duct over short lengths (2m max.)
- 100mm 4" size
- Profile depth of 40mm
- Built-in overrun timer 2-30 mins
- Low noise level of just 35dBA @ 3m
- Extraction rate of 90m³/hr
- LED lighting effect during activation
- SFP: 0.52
- Compliant with latest Building Regulations (Part F)

230V 50Hz | IPX4 | 3 YEAR WARRANTY

EXTRACTOR FAN

- Designed to be installed into walls and ceilings
- Slim profile, compact, attractively styled, easy to wipe clean and convenient to duct over short lengths (2m max.)
- 100mm 4" size
- Profile depth 22mm
- Built-in overrun timer 2-30 mins
- Low noise level of just 35dBA @ 3m
- Extraction rate of 90m³/hr
- Compliant with latest Building Regulations (Part F) & (Part L)
- SFP: 0.44

230V 50Hz | IPX2 | 3 YEAR WARRANTY

Code	Model
EX001T	4" Fan with Timer

GRAVITY SHUTTERS

- Prevents backdraft and rain penetration when installed in internal/external walls
- Easy to install, and suitable for use with round ducting
- Prevents objects or vermin entering when the ventilation is not in operation

Code	Model	Description
EX007B	4"	Black
EX007W	4"	White

FIXED GRILLES

- An easy-fix solution for internal/external walls, with integral fly screen to keep insects out
- Suitable for use with round ducting
- Removable front grilles allowing access for maintenance and cleaning of the fly screen

Code	Model	Description
EX009B	4"	Black
EX009W	4"	White

BACKDRAFT KITS

- Only compatible with EX003/4/5/6 models

Code	Model	Description
EXBDCKIT	100mm/4"	Ceiling Mounted
EXBDWKIT	100mm/4"	Wall Mounted

ALUMINIUM DUCTING KIT

- 3m of expandable aluminium ducting
- Kit includes 2 x Jubilee clips

FIRE-RATED DOWNLIGHTS
GUIDE TO CERTIFICATIONS

With over 20 years' experience developing and testing fire-rated downlights, Knightsbridge has established itself as one of the UK's leading manufacturers for GU10 cannisters and integrated LED downlights.

To help you find the perfect fit for the job, we have pulled together this handy guide to the different types of certifications that you will see referenced throughout this section.

FIRE-RATED – 30/60/90 MINS

There are separate 30 minute, 60 minute, and 90 minute tests for fire rated downlights. In each test the ceiling configuration is different with ceiling thickness and joist centre spacing altered to simulate typical 30, 60, 90-minute ceiling constructions.

IC RATED DOWNLIGHTS

To date, installation of traditional downlights has been at odds with the requirements of Parts L1 A and B of the Building Regulations which are focusing on energy efficiency and energy saving.

The problem was – and remains for many standard products – that holes need to be cut in ceilings for installation. This compromises the fire and acoustic barrier of the ceiling and also results in heat loss and moisture transfer. Furthermore, to promote heat dissipation from downlights, reduce fire risk and extend lamp life, insulation is also removed from around and above the units; further compromising the thermal performance of the space.

While most fire-rated downlights now address the issues regarding fire, acoustics and moisture transfer, they still can't be covered by insulation – still creating thermal bridges that impact the energy efficiency of the ceiling and roof structures.

Knightsbridge insulation contact (IC) rated downlights solve this issue; these innovative products allow glass or rock mineral wool insulation to be laid, without gaps, directly over the units. Clever construction allows heat to dissipate through the ventilated body while maintaining the structural integrity of the ceiling and helping conformity with Building Regulations.

Low profile (minimum void 40mm Fixed version; 60mm Tilt version)
Wattage and CCT adjustable
Stylish interchangeable bezels
Robust steel construction
High-efficiency dimmable driver
Professional 870lm output

SpektroLED®

THE 40-IN-1 SOLUTION

FIXED / TILT	5W / 8W	2700K / 3000K / 4000K / 6000K	5	5
Options available	Dual Wattage	CCT Adjustable	Bezel Finishes	Year Warranty

Designed with budget in mind and the end user at heart.

Boasting a 40-in-1 feature set consisting of 2 user-definable wattages and 4 CCT options with 5 easy to install bezel finishes, the **SpektroLED** range is the perfect choice for cost effective and energy efficient lighting installations that demand versatility.

Available in both Fixed and Tilt option – the **SpektroLED** range allows for even greater customisation by providing further flexibility in adjustment.

SpektroLED gives you complete control over the experience.

IP65 FIXED	IP20 TILT	IC RATED	ACOUSTIC TESTED**

*Tested with Staircraft i-joists **SPEKFCWA only to date

COMPLETE CUSTOMISATION

Warm white		Cool white	Daylight
2700K	3000K	4000K	6000K

5W

8W

Residential | Commercial | Hospitality

With the **SpektroLED** range, contractors can quickly alter the lighting output for their intended application by using the switches on the back of the fire-rated LED downlight.

Furthermore, the different bezel colours complement every style of interior design, making **SpektroLED Fixed** and **SpektroLED Tilt** the logical choice for ultimate customisation based on user demands, desires and environments.

ENGINEERED FOR THE TRADE

SpektroLED Fixed and **SpektroLED Tilt** have been designed with a detachable connector to make the install as simple as possible, decreasing installation time to increase efficiency onsite.

Light engine can be taken off site until second fix stage in order to avoid potential damage when painting and decorating

Push-fit terminals with loop-in / loop-out for easy installations

SpektroLED®

DESIGNED WITH BUDGET IN MIND AND THE END USER AT HEART

NEW

SPEKTROLED® QUAD CCT FIXED FIRE-RATED DOWNLIGHT

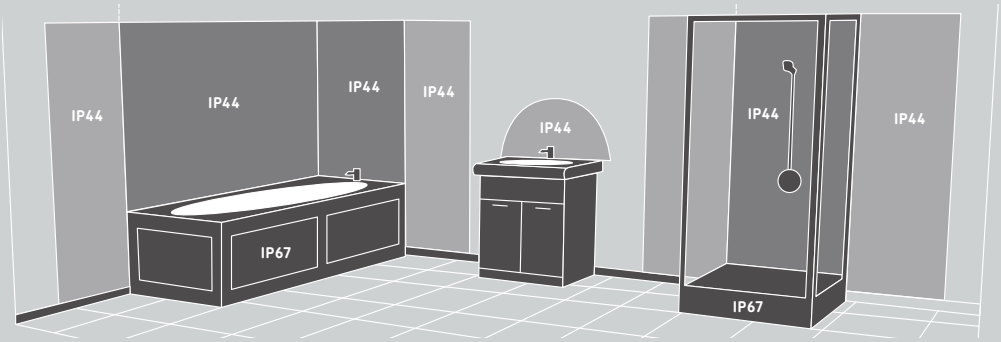
THE PERFECT FIT FOR BATHROOMS



Bathroom luminaire installations must comply with legislation. This has recently been updated and is now Section 701 of BS7671:2018+A2:2022 (Wiring Regulations 18th Edition)

Zone 0 is inside the bath or shower itself. Any fitting used in this zone must be IP67 low voltage (max 12V).

Zone 1 is the area above the bath to a height of 2.25m from the floor. In this zone a minimum rating of IP44 is required.

Zone 2 is an area stretching 0.6m outside the perimeter of the bath and to a height of 2.25m from the floor. In this zone an IP rating of at least IP44 is required (except for shaver sockets located where direct spray is unlikely). In addition, it is good practice to consider the area around a wash basin (within a 60cm radius of any tap) as Zone 2.

Outside zones is anywhere outside zones 0, 1 and 2 (subject to specific limits) and where no water jet is likely to be used. No IP rating is required.

In addition to the above, if there is a likelihood of water jets being used for cleaning purposes in zones 1, 2 and "Outside Zones" a fitting rated a minimum IP65 must be used.

A 30mA residual current device (RCD) must also be used to protect all circuits supplying the location. Full details can be found in the latest copy of IEE wiring regulations.

SINGLE G9 BATHROOM WALL LIGHT

- Opal glass orb
- Pull cord on/off switch
- Dimmable subject to lamp

VERTICAL AND HORIZONTAL FIXINGS INCLUDED

CONNECTION COVER

LINKABLE

Ultra-slim LED striplights, ideal for kitchen lighting, cabinet lighting, cove lighting, and retail applications. Linkable end-to-end by a coupler (included) or using link leads (available separately). Up to a maximum of 12 units can be interlinked to each other

- Integral driver, independently switched
- Energy efficient and long life
- Emits an even light distribution
- Versatile and simple to install
- Mountable horizontally or vertically
- Fixing kit supplied

LED LINKABLE STRIPLIGHTS

Construction: Polycarbonate
Driver: Integral
Lamp type: LED

FLEX-CUT

THE BESPOKE ONLINE LED STRIP CUTTING SERVICE FROM KNIGHTSBRIDGE

Buying LED Flex has never been simpler – tailor multiple LED Flex set-ups to suit your needs, in just five easy steps!
Available to all registered customers at mlaccessories.co.uk

HOW IT WORKS

PICK YOUR IP RATING
Select the level of water protection you need for the job

PICK YOUR COLOUR
Select the colour of the light output you require – we offer a huge range of lighting options

SELECT YOUR SETUP
Specify your desired cable and flex strip length

TAILOR YOUR LED FLEX
Add any required drivers, controllers, and aluminium profiles to your order

FINISH
Review and place your order

30M/50M REELS AVAILABLE CONTACT US FOR MORE INFORMATION

WHY CHOOSE LED FLEX?

HIGHLY VERSATILE

Our LED Flex range is extremely versatile and adaptable, with a huge array of different lighting colours and outputs, including colour-changing, high lumen and IP67 options. Whatever the application, we're sure to have the perfect fit!

AMBIENT LIGHTING EFFECTS

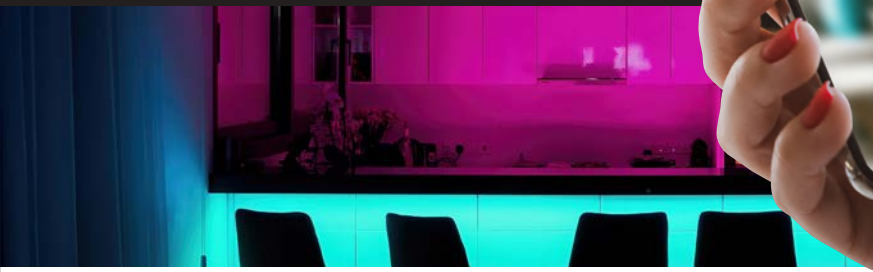
Create stunning ambient lighting effects anywhere indoors or outdoors, with subtle tones that can complement any space. LED Flex can be particularly effective for illuminating under-cabinet spaces in kitchens, but the possibilities are endless!

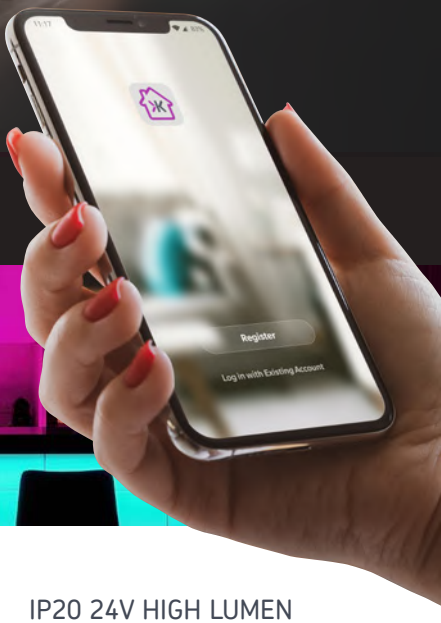
LED FLEX REMOTES AND CONTROLLERS

A selection of remotes and controllers for use with Knightsbridge LED Flex, ranging from basic button remotes to touch panel remotes for an extensive range of dimming colour controls

REMOTE CONTROL

Our range of LED Flex lighting can be controlled remotely, either by a remote control or (when installed with our Smart LEDFWIFI controller) via the SmartKnight App on your smartphone. The SmartKnight app enables scene control, geo-fencing, and other creative and convenient ways to control your lighting.





OPTIONS AVAILABLE:

IP20 24V

- Warm white / cool white / daylight
- Red / blue / green / yellow
- CCT / RGB / RGBW adjustable

IP67 24V

- Warm white / cool white / daylight
- CCT / RGB adjustable

IP20 24V HIGH LUMEN

- Warm white / cool white / daylight

VISIT MLACCESSORIES.CO.UK AND CLICK 'FLEX-CUT' TO GET STARTED!

12V IP20 SINGLE COLOUR LED FLEX

- Dimmable when using **LEDFRA1** and **LEDFRA7** remote control unit, or when using constant voltage dimmable drivers (not included)

Driver: Required
Compatible remotes: LEDFRA1 or **LEDFRA7**

THE PERFECT FIT FOR OUTDOORS

Important: Some of our outdoor lighting products may not be suitable for use in coastal areas where salt corrosion is prevalent.

KNOW YOUR IP RATING

IPXX

First digit
Indicates the level of protection against access to hazardous parts and the ingress of solid objects

1	**>50mm** Protection against any large surface of the body, such as the back of a hand, but no protection against deliberate contact
2	**>12.5mm** Protection against fingers or similar objects
3	**>2.5mm** Protection against tools, thick wires, etc
4	**>1mm** Protection against most wires, slender screws, large insects etc
5	**Dust protected** Protection against dust that may harm equipment
6	**Dust tight** No ingress of dust; complete protection against ingress

Second digit
Indicates the level of protection against the harmful ingress of water

1	**Dripping water** Protection against vertical drops when mounted in an upright position onto a turntable and rotated at 1 RPM
2	**Dripping water (tilted)** Protection against water droplets when tilted up to 15° from vertical
3	**Spraying water** Protection against water spray from all up to an angle of 60 degrees
4	**Splashing water** Protection against splashing water from any direction
5	**Water jets** Protection against low pressure jets of water from any direction
6	**Powerful Water jets** Protection against high pressure jets of water from any direction

Please note, IPX7 and IPX8 are tested using different methods from IPX6 and below. Products with IPX7 or IPX8 ratings are not necessarily protected from water jets or splashes

7	**Immersion up to 1m** Protection from immersion in water under defined conditions of pressure and time
8	**Immersion beyond 1m** Protection from immersion in water under defined conditions of pressure and time

Important: Some of our outdoor lighting products may not be suitable for use in coastal areas where salt corrosion is prevalent.

OUTDOOR LIGHTING

GROUNDLIGHTS & DECK LIGHTING

Ideal for driveways, garden walkways, patios, and decking areas. These luminaries are small and discreet, but still provide effective guiding illumination

GROUNDLIGHTS

GU10 Groundlights	330
LED Groundlights / Groundlight with Half Lip	331
LED Groundlights / LED Shallow Groundlights	332
COB LED Groundlights	333

DECK LIGHTING

LED Interchangeable Wall / Groundlights	334
LED Deck Lights & Kits	335

Note: Some of our outdoor products may not be suitable for use in coastal areas where salt corrosion is prevalent

Knightsbridge

Committed to a brighter future

At Knightsbridge, we believe in looking after our customers and looking after our planet. This philosophy is important to us and is why we have started to apply it to the way we package and present our products.

We are now working in conjunction with the FSC® moving towards 100% recyclable / 100% recycled packaging solutions. Look out for the FSC® label on our certified packaging.

This is our plan, this is our commitment to a brighter future.

95% REDUCTION IN SINGLE USE PLASTICS

98% BIO-DEGRADABLE PACKAGING

100% RECYCLABLE PACKAGING

FSC www.fsc.org FSC® N003051 The mark of responsible forestry

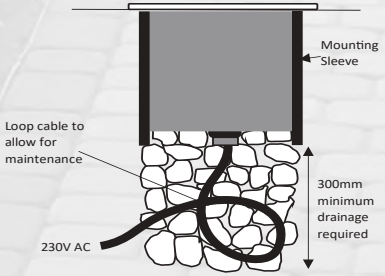
FSC FORESTS FOR ALL FOREVER™

ENVIRONMENTALLY APPROPRIATE forest management ensures that the harvest of timber and non-timber products maintains the forest's biodiversity, productivity, and ecological processes.

SOCIALLY BENEFICIAL forest management helps both local people and society at large to enjoy long term benefits and also provides strong incentives to local people to sustain the forest resources and adhere to long-term management plans.

ECONOMICALLY VIABLE forest management means that forest operations are structured and managed so as to be sufficiently profitable, without generating financial profit at the expense of the forest resource, the ecosystem, or affected communities.

RECOMMENDED GROUND PREPARATION (IP65)



Ensure there is a minimum 300mm 'hole' below the fitting, fill with loose gravel or pea shingle

Test hole by filling with water which should drain away within 30 minutes

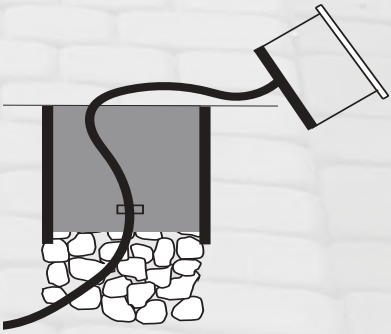
Leave cable loop in gravel to allow access and extraction of fitting

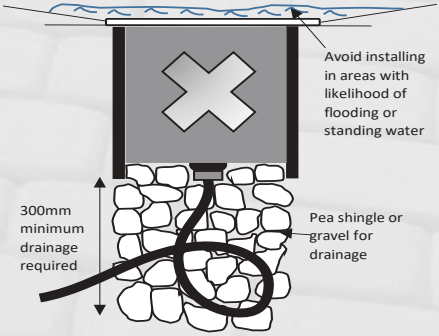
Final circuit connection

Use IP68 connection boxes which are gel filled if buried

Joint should be accessible for repair or maintenance

All outdoor circuits should be protected by either an RCD or RCBO





For areas with a low water table or likely to flood leaving 'standing water', IP65 fittings should be avoided.

Fittings with IP67 or IP68 ratings should be used in these installations

GU10 GROUNDLIGHT

Construction: 304 Stainless steel
Driver: Not required
Lamp type: GU10 LED

OUTDOOR LIGHTING

FLOODLIGHTS, SECURITY LIGHTING, & OUTDOOR HEATERS

Floodlights provide an ultra-high lumen solution to any outdoor space - this range includes RGB models and CCT adjustable Spotlights

IP65 Lightweight LED Floodlights	340
IP65 High Power LED Floodlights	341
IP66 High Lumen Commercial Flood Light & Accessories	342
IP65 CCT Adjustable Security Floodlights with PIR	344
IP55 Security Spotlights with PIR	345
IP65 Twin Spot Security Floodlights	346
RGB LED Floodlights	347
Outdoor Heaters	347

Note: Some of our outdoor products may not be suitable for use in coastal areas where salt corrosion is prevalent

LIGHTWEIGHT LED FLOODLIGHTS

- This range of LED floodlights offers the user quality and versatility, with the ability to add either PIR or microwave sensors
- High lumen - produces in excess of 120lm/W
- Easy-install - with angled brackets and built-in connector, meaning no outdoor connections and faster installations
- Low profile design

Construction: Die-cast aluminium
Driver: Integral
Lamp type: LED

Code	Wattage	Model	CCT	Dimensions (mm)	Lumens

HIGH POWER LED FLOODLIGHTS

LED floodlights with high lumen output and instant ignition makes these luminaires ideal for security / high level illumination in commercial, retail, and industrial environments

- Internal terminal block on the rear allows for direct wiring
- Low maintenance with high output
- Fortified bracket and fastenings

Construction: Die-cast aluminium
Driver: Integral
Lamp type: LED

230V 50Hz

CCT SECURITY FLOODLIGHT WITH PIR SENSOR

- Wide operating voltage range 100-277Vac
- Twin or triple head options available (20W & 30W)
- High quality SMD2835 LEDs
- Manual override facility
- Adjustable sensitivity, time, and lux
- Easy fix wall mount and push fit assembly
- 90° PIR detection range
- 8m detection distance

Construction: Polycarbonate
Driver: Integral
Lamp type: LED
Beam angle: 70° (from each head)

230V 50Hz | IP65 | LAMP INCLUDED | 5 YEAR WARRANTY

Featuring user definable white light CCT Adjustable 3000/4000/5500K by means of a selection switch

360° lamp bracket rotation, 180° lamp head rotation, 270° lamp head tilt

PIR motion sensor with adjustable timer and adjustable Lux levels . override facility

CCT ADJUSTABLE LED BULKHEAD

This versatile IP65 LED bulkhead boasts LED colour changing technology enabling the installer / end-user to adjust the colour temperature via a switch on the gear tray.

- Time saving and user-friendly installation via hinged gear tray and push-fit terminal block
- Specialised polycarbonate diffuser ensures high lumen levels with smooth uninterrupted light
- Suitable for domestic and commercial applications, wall or ceiling mounted
- A range of easy-fit coloured trims and eyelid options make this an extremely adaptable and time-saving solution

EASY INSTALL

PUSH-FIT TERMINAL BLOCK AND HINGED GEAR TRAY FOR HASSLE-FREE WIRING

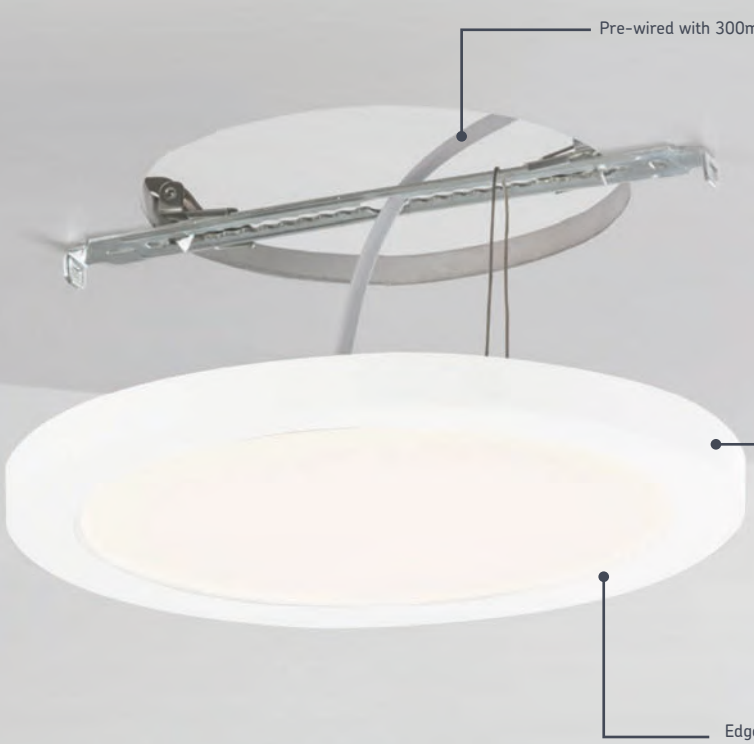
COMMERCIAL LIGHTING

COMMERCIAL DOWNLIGHTS

Perfect for office, retail, and other commercial spaces. This range includes the extremely versatile CPL LED Panel Downlights

Recess/Surface CCT Adjustable LED Panel Downlights	364
LED Downlights | LED Wall Washers	368



RECESS / SURFACE CCT ADJUSTABLE LED PANEL DOWNLIGHTS

This innovative dual mounting LED panel is the ideal replacement for recessed traditional CFL / fluorescent downlights. Available in four sizes, the adjustable recessed fixings enable replacement for existing recessed light fixtures, and is easily adaptable for existing apertures of between 55mm - 250mm (subject to model). This ensures minimal redecoration and fast installation.

- Available in four sizes
- Pre-wired with 300mm cable
- Adjustable recessed brackets, suitable for 55mm to 250mm cut-out
- Edge-lit
- Optional magnetic bezels available

ADJUSTABLE MOUNTING BRACKET
55MM-250MM CUT-OUT

Construction: Polycarbonate
Driver: Integral

NEW LINES ADDED

DUAL-MOUNT LED LUMINAIRE

Easy to install surface or suspended, boasting quality and innovation offering superior flicker-free uniform illumination

- Commercial grade 4790lm output
- Retrofit replacement for older fluorescent technology
- Surface and suspended mounting
- Compliant with latest Eco design and ErP requirements
- Push-fit terminals with loop-in/loop-out for easy wiring
- Low profile modern design
- Robust pressed steel and polycarbonate construction
- Works with various Knightsbridge motion and daylight sensors for added energy savings and maximised user comfort
- Energy, time, and cost-efficient lighting – made for the trade

Construction: Pressed steel & polycarbonate
Driver: Included
Lamp type: SMD LED

SURF418EMHF	4 x 18W T8 - Emergency	W: 600 L: 610 P: 80

COMMERCIAL LIGHTING

BATTENS

Our huge range of battens provides a suitable product for any application. This includes innovative LED battens designed for quick and easy installations

T8 LED Tubes | T8 LED Battens	380
LED Single Battens	381
IP20 LED Battens	383
IP20 Adjustable CCT & Wattage LED Battens	385
IP20 DALI Adjustable CCT LED Battens	409
T8 Fluorescent Battens	386
T8 Prismatic Diffusers | T8 Reflectors	387

T8 LED TUBES

- Alternative to classic T8 fluorescent lamps
- Up to 130lm/W
- Instant ignition provides uniform illumination
- Integral driver for ease of installation
- Not for use with external electronic or magnetic ballasts

Lamp type: LED

230V 50Hz | IP20 | 2 YEAR WARRANTY

T8 LED READY BATTENS

- Supplied pre-wired for use with dedicated T8 LED self-ballasted tubes
- Supplied without a ballast (necessary for use with fluorescent lights)
- For use with LED tubes which are powered from one side only
- Replaces most standard traditional T8 fluorescent fixtures
- LED tubes not included

Construction: Steel
Lamp type: LED

230V 50Hz | IP20 | LAMP NOT INCLUDED | 1 YEAR WARRANTY

TORLAN NON-CORROSIVE

TORLANECO

FOR RESIDENTIAL AND LIGHT COMMERCIAL PROJECTS
DEMANDING QUALITY AND SUPERIOR UNIFORM ILLUMINATION

TORLANCOMM

SUPERIOR ANTI-CORROSIVE POLYCARBONATE LED BATTENS SUITABLE FOR
COMMERCIAL AND INDUSTRIAL APPLICATIONS, BOTH INDOOR AND OUTDOOR

TORLANPRO

FOR INDUSTRIAL, FARMING, AND OTHER EXTREME APPLICATIONS THAT
DEMAND ROBUST, DUST AND WATERTIGHT, IMPACT-RESISTANT LIGHTING

NEW

TorlanECO FAST-FIX LED NON-CORROSIVE FITTINGS

TorlanECO is a cost effective IP65 and IK06 rated LED batten fixture, designed for budget projects, that demand quality and superior uniform illumination.

- Easy-install: simply fix the bracket to the intended surface and push the fixture into place
- Wall and ceiling mountable
- Suitable for both indoor and outdoor applications, within residential and commercial premises

Construction: Polycarbonate
Driver: Integral
Lamp type: LED

- Lumileds SMD LEDs
- Highly efficient at 145lm/W
- 120° beam angle with option to fit 60° accessory lens accessory*
- Microwave sensor and DALI control modules available*
- 0-10v dimmable as standard

* Accessories sold separately

Construction: Die-cast aluminium
Driver: Included
Lamp type: SMD LED
Beam angle: 120°

SELF-TEST

AUTO SELF-TEST

WHAT IS SELF-TEST?

The self-test feature is built into each product and conducts routine functional and duration testing in accordance with the relevant standards, obviating the need for costly manual testing and intervention other than to record and rectify faults.

WHAT ARE THE BENEFITS?

Self-test lighting offers convenience, compliance, cost savings, and ease of fault identification. With no requirement to isolate the mains supply to test, there is no disruption to the normal working day and no loss of productivity.

HOW DOES IT WORK?

After installation and an initial 24-hour charging period, the product conducts its own self-test operation. This comprises of a 3-hour duration test, after which a 30-second 'monthly' function test is carried out every 28 days, and then yearly another 3-hour duration test. Following each self-test sequence, the unit will revert into charging mode.

The unit's status and any fault modes are shown by the bi-colour LED indicator and manual initiation of the testing procedure is also possible should it be required.

SMART HOME

Smart lighting and wiring accessories that are easy to control via the SmartKnight app

Smart Switched Socket	431
Smart Outdoor Switched Socket	432
Smart Plug | Smart Extension Lead	433
Smart Sensors	434
Smart Camera	435
Smart Fire-Rated Downlight	436
Smart RGB & CCT Adjustable LED Downlight	437
Smart CCT Adjustable LED Panel	438
Smart LED Flex Controller	439
Smart Lamps	440

EASY FOR THE
SIMPLE FOR TH

With Knightsbridge, creating a smart home couldn't be simpler!

Our SmartKnight app enables users to control their appliances via their smartphone, including on/off, dimming, colour adjustment, and much more.

Please refer to the individual product listings within this section, or our website, for full details on what each smart product is capable of.

Download **Add Device** **Enjoy**

Our smart products are designed for easy installation, with features such as push-fit terminals on downlights and retrofit capabilities on smart sockets

USER,
HE INSTALLER

NO HUB REQUIRED

Products connect directly via Wi-Fi enabling global remote access.

No space and money wasted on additional hubs / gateway devices

TIMERS

Set up schedules within the home using the timer function to automate when devices turn on/off.

VOICE CONTROL

Voice control works with *Hey Google* or *Amazon Alexa*

GEOFENCING

Don't come home to darkness; program lights to automatically turn on/off based on your GPS location

SCENES

Utilise preset scenes such as 'Movie', or create your own.

SECURITY

Instant security alerts to your mobile device

works with alexa

SECURITY & AUTOMATION
Apply a sensor to doors and windows for peace of mind. 24/7 push notifications on a door or window breach. Combine with other products to switch on a light when activated

MONITORING
Use sensors to monitor a household's activities i.e. Front door opened/closed at 16:00pm.

EASY INSTALLATION
No gateway product required – connects via Wi-Fi and SmartKnight app

LOWER POWER CONSUMPTION
Battery life of up to 1 year based on 20 activations per day

SMART ENTRY SENSOR
- Compact size for discreet positioning around door and window frames
- Simple do-it-yourself installation, with adhesive pads (included)

Code	Model
OSEKW	Entry Sensor

Warranty excludes battery

BATTERY POWERED | IP20 | WI-FI | 2 YEAR WARRANTY

SMART MOTION SENSOR
- Compact size - just 64 x 64 x 30mm for discreet positioning
- Detects motion up to 4.5m distance with a detection angle of 100° when wall-mounted and 90° when ceiling mounted
- Easy installation: simply mount to wall or ceiling with the magnetic mount

Code	Model
OSMKW	Motion Sensor

Warranty excludes battery

BATTERY POWERED | IP20 | WI-FI | 2 YEAR WARRANTY

NO HUB REQUIRED

TIMERS

SMART RECESS MOUNT PIR SENSOR

- 24/7 monitoring - receive instant alerts when there is unexpected movement in your home
- Easy installation: no gateway product required connects via Wi-Fi and SmartKnight app
- Automate devices (such as lights) to turn on/off if motion is detected

Field of detection: 360°

230V 50Hz | IP20 | WI-FI | 2 YEAR WARRANTY
